Library Management

Modern libraries are under pressure to remain relevant and adapt to a rapidly changing information landscape. ZAI is on the leading edge of innovative digital solutions that optimize even the most massive information repositories. Whether your agency needs a progressive digital solution, a traditional library solution, or an innovative hybrid solution, ZAI has the experience, staff, and expertise to design, implement, and maintain cost-effective information management and library projects.

Data Management
Framework/ontology design
Data transformation/reformatting
Digital repositories
Data curation

Metadata configuration/verification
508 compliance

Collection Support
Shelfreading/re-shelving
Inventory
Rehousing/relabeling
Material assessment for conservation

Archival Collections
Assessments/inventories
Conservation
Finding aids
Displays/exhibitions

Subject Matter Expertise
Specialized SMEs
Systems migration/maintenance
Bibliometrics/data visualization

Outreach
Multimedia development
Website content/development
Library marketing

Training
LMS administration
Course/curriculum development
Class management/deployment

Information and Library Management

Project Highlights

ZAI successfully transformed the FCC Library from a traditional print environment to a 21st century e-resource information center, substantially increasing database and service usage.

The NIH Library trusted our capabilities to beta test a bio-statistical consulting service through our Biostatistician while mitigating the risk of hiring a Federal employee into an untested program.

ZAI led the NASA Goddard Space Flight Center Library's transition from a traditional environment to an award-winning, digital library recognized as one of the top forward-thinking Government libraries.

For NOAA, ZAI staff developed a unique process, using open-source data and tools to improve access to NOAA's published research and further NOAA's Open Science goals.

ZAI (through a FEDLINK task order) manages the Bureau of Prisons Robert J. Kutak Memorial Library, Information Center, and NIC website to support law enforcement, the public, and researchers with a one-of-a-kind resource center.

Our People and Our Culture

Our people are the heart of what we do

- Library Division leadership with decades of Federal/commercial experience
- Librarians with advanced degrees
- Specialized SMEs with scientific, medical, legal, and other expertise
- Continuous recruiting to maintain a robust pipeline

Our culture drives our success

ZAI fosters a culture of participation and problem solving from any level.

Regular discussion among our project teams cross-pollinates our projects with new ideas and technologies.
